The Editor's Message

... A Very Special Note to

the

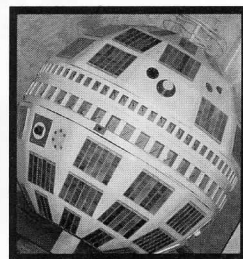

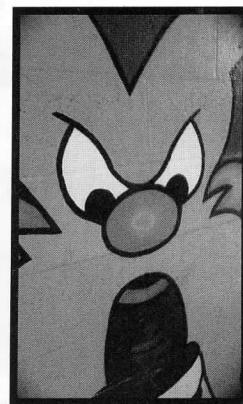

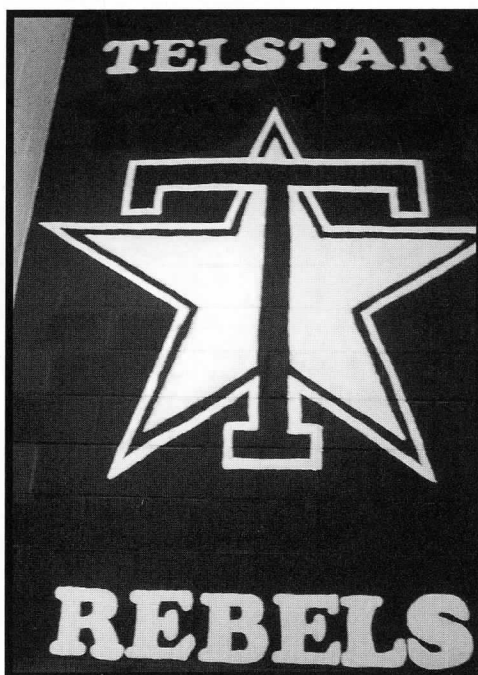

Class of 2011

Seniors:

It seems like yesterday when we entered first grade ... and now we're graduating! We would like to thank our parents and families, as well as our teachers, who have helped us achieve our goals. They each had a part in our education. The *Zodiac* staff would also like to thank the community businesses who generously purchased advertisements to help make our book possible. The yearbook staff has worked really hard to make this edition of the *Zodiac* the very best they could. We hope you will enjoy every page.

Good luck!

The Principal's Message

To the Class of 2011:

As the last academic semester of your high school career is now underway and graduation approaches, may you take time for self evaluation and reflection. "How well educated and prepared am I at this time in my life?" "What do I want to accomplish personally and career-wise, in five years? In ten years?"

Your time at Telstar High School has passed quickly! May your many accomplishments here provide you the foundation to meet the excitement, anxieties, pressures, accomplishments, and hardships ahead. You will surely be tested.

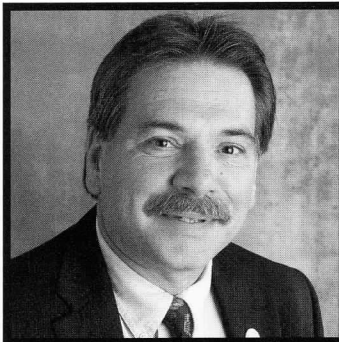

Many of you have demonstrated through your academic learning, extra-curricular activities, community service, employment opportunities, and various relationships in and out of school -- that you are ready to move on to the next milestone of your life.

You are unique, talented, special people -- the Class of 2011. I have grown both as an individual and professional in my time among you during the past three years. I appreciate those many moments you have been a "giver" and have left your footprints in and out of the classroom, around the Telstar Complex, and in the SAD 44 community.

Remember to express your appreciation to your friends, employers, teachers, coaches, relatives, and parents for their support with your education. Some day soon, you will be supporting younger individuals with their own education.

May the future provide you every opportunity to further your education, to gain personal satisfaction from hard work and special relationships. Above all, believe in yourself.

Best Wishes,
Daniel O. Hart, Principal

Junior Editors Quiz on TELSTAR

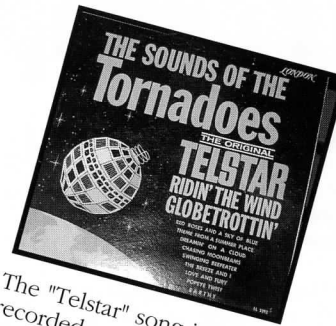

QUESTION: What is the satellite Telstar used for?

* * *

ANSWER: In the days before Telstar, there was telephone and radio communication between the U.S.A. and the rest of the world. However, the cables across the Atlantic and the radio voice channels could handle only 550 messages at once—not enough to meet the rapidly increasing demand. No television signals could be sent across the Atlantic.

In 1962, The Bell Telephone Company built the tiny satellite Telstar, a general idea of which is given in the picture, and put it into orbit around the earth. High in the air, Telstar picks up signals sent out on the "micro-wave" frequency. It amplifies them 10 billion times and sends them out again. On the other side of the Atlantic, these signals, now very faint, are picked up, amplified again and can be heard (and seen on TV screens) in Europe. Telstar needs electric power to operate. This is supplied by batteries charged by 3,600 solar cells, which are able to change sunlight directly into electrical energy. Since Telstar, several other communication satellites have been put into orbit.

Article reprinted with express written permission.

The "Telstar" song is recorded and produced in 1963 by the Tornados.

William Morton
Social Studies Department
1968-Present

1968: a year of hope, turbulence, change and innovation. It was driven by a generation that defied gravity. This generation was seeking new perspectives and it possessed a strong belief that anything was possible. In a rural setting in western Maine, a new high school opened its doors in September of that year, imbued with a youthful idealism. New teachers blended with the experienced staff and embedded within this staff was a developing passion for learning. New ideas such as modular schedules, unstructured time, liberal attitudes, self-responsibility, and individuality abounded and there was a dream of an educational utopia. We believed and acknowledged that the torch had been passed to a new generation of educators. With Rowan and Martin's "Laugh-In," the Smothers Brothers "Comedy Hour," and Archie Bunker's "All in the Family" as top television shows, nothing was safe from spoof, parody, or satire. There was a tendency toward impatience with custom, and an exaltation of the individual. We attempted to build a learning environment that was tolerant and inclusive. We accepted Henry David Thoreau's belief that "If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music he hears, however measured or far away." Today, forty-three years later, we must be vigilant and remind ourselves of the cornerstones on which Telstar High School was built. Our mission still is to encourage our school community, through quality education, to be respectful, responsible, lifelong learners with a passion for excellence.

Woodstock, Maine

INCORPORATED 1815

"Home of the last Hand Crank phone system"

Woodstock

Founded in 1815, Woodstock currently has a population of 1,355. The town is the home of the last hand crank telephone system. Kayakers and canoeists enjoy the many bodies of water in the town, including North and South Ponds. Woodstock also has a conservation school located on Lake Christopher. Many enjoy the serenity of Twitchell Pond, as well.

Newry

With a population of 387, Newry was incorporated in 1781. Grafton Notch State Park and the Bear River are popular places to have a picnic. Home of Sunday River Ski Resort, Newry also boasts many lovely hiking trails and a much-photographed covered bridge.

WELCOME TO MT. ABRAM

Greenwood

Birthplace of retail founder, L.L. Bean, Greenwood was incorporated in 1816. It has a population of 1,817. The town's founder, Chester Greenwood, is famous for his invention of the earmuff. Greenwood has several "secret" berry-picking locations, which locals are reluctant to share with visitors.

Bethel

The town of Bethel has been known for its restful and peaceful atmosphere. Founded in 1774, its quaint, picturesque downtown community resembles a Hallmark greeting card. It has a population of 2,500. *Zodiac* Editor Jillian Rice's ancestor founded the town.

Andover

Andover is home to a charming town green, which is the site of the annual Andover Old Home Days events. It was founded in 1789 and currently has a population of 910. The town has several miles of snowmobile and hiking trails.

"So much to say, but no words to convey." ~ MCS

Ironically enough, this describes my high school experience here at Telstar. I've managed to turn myself around and become the person I never thought I'd be. It wouldn't have been possible for me to make it this far if it weren't for my parents. Even though I acted disrespectfully to them throughout much of my high school career, they never gave up on me and always motivated me. I would also like to thank my friends for giving me plenty of time to reminisce upon. It's gonna be tough saying goodbye to the people I've grown up with for the past twelve years. I hope we manage to stay in touch, even as we drift apart. Thank you, Telstar, for providing me with an education that I took mostly for granted until now. And thank you, everybody, for being awesome people! Bill, Dusty, Corey, Simon and Dylan: Friends since the beginning, friends 'til the end. Who's up for a game of virus? See ya.

Tarra Arsenault

Thank you to everyone who has helped me throughout my high school years. You know who you are. I could not have made it without your help. To all my graduating friends, congratulations! We made it!!! I hope you succeed in everything you set out to do. To all my friends that I'm leaving behind, take care of the school and keep the teachers in line. Courtney, you are the little sister that I've always wanted. Now that I got you, I wish it was just as easy to get rid of you. Lol JK. To my big sisters, Steph & Jen, thank you for kicking my butt whenever I got out of line. Dad, thank you for all your stories and your machining abilities. Mom, you have helped make me who I am today, and I thank you for all the strength that you have given me. Without it, I do not know if I could have made it this far. And thank you everyone else that I failed to mention, just so you can't say that I forgot about you. I love you all very much. Thank you and good luck!

Sarah Averill

Mom, we had our fights, but got through them. I just want to thank you for everything you've done. Dad, you were the one who truly understood everything I said or felt. I wasn't your hunting girl, but you still loved me! Thank you and I will miss you dearly when I go to college! Gail and Victoria, you guys have been my best friends throughout the years. We've gone through a lot. I'm going to miss you two, lots. Kallie and Lynds, good luck next year in softball and hockey. Represent the left side, please! Jenna, I love you, girl! I am going to miss the fun times we have had. You're a great friend, more like a sister. You're always there, and don't forget Dale loves you! Kelsey, you are the one who knows me the most. Thank you for always being there, even if you did get me in trouble sometimes. I guess I deserved it. Don't let anyone tell you that you can't do something, because you can!! I'll miss you next year. To the Class of 2011, it's been fun. Keep your heads up high.

Dustyn Bailey

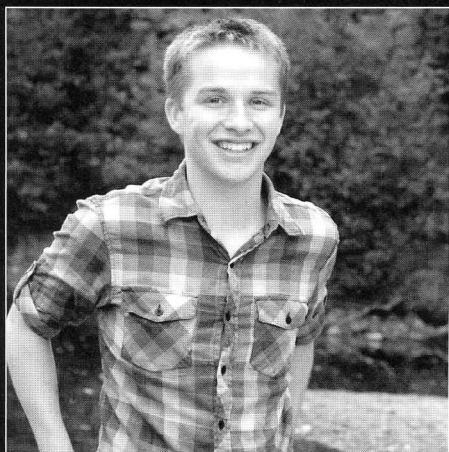

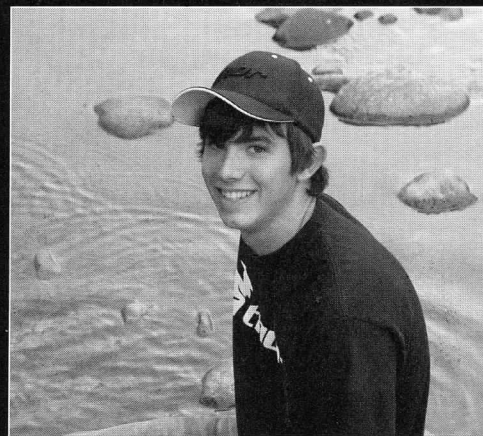

My last words? Are there any words to describe my time here at Telstar? I think not. I have experienced so much over the last years. Trials and triumphs, difficulties and defeats. To go forth or stay home, to move away or continue on. These years have been met with many challenges, too many to list. So all I want to say is, thank you, to all who have helped me in my time of sorrows and anger, as well as those who have kept me in times of happiness and content. You know who you are. As for me, who knows where the winds of passion blow? I hope all my friends achieve their own happiness in life and continue on their own paths.

So long.

"Try not to become a man of success, but rather try to become a man of value."

Joshua Bellinger

In my attempt to be completely original, I would like to thank my friends and my family for their support throughout my educational career. If I were to be like everyone else, I would write about the good memories I've had. If I wanted to be unoriginal, I would write inspirational quotes, such as "Every man dies. Not every many really lives." I could thank my teachers. But I will not write about these things. I will not quote Bill Cosby when he says, "A word to the wise ain't necessary--it's the stupid one that need the advice." In fact, I don't really know what to write about. What am I supposed to write about when this important portion of my life has passed by? What do I say to the people who have made me who I am today (though they may not want to take credit for it). This is what I say, "I hope that I have played as big a part in their lives that they have made in mine. May the force be with you."

Tianna said to put her name, so ... Tianna Marie Wells. =)
Dylan said to put, "Thanks for the subway bracelet :D."
Corey: lolololololol.
Billy said to put, "Billy is a Salmon.: :p
Ricky: ahhhhhhhhh.
I hope to stay connected with these and other friends throughout my life after Telstar. They have made me who I am and I love them. (:

Where to start? It's been a long, hard 4 years but I could not have done it without the help and support of my parents and my brothers, Allen and Andrew. Also, I could not have gotten through my high school years without the help and support of my best friend, Anna Shenk. I have had some good times at Telstar, hanging out with all my friends, Katherine & Grace Stover; Nitasha, Rose, Kenny, Ricky and all my friends. I would like to thank Mr. Bennett, my English teacher, and Mr. Morton, my History teacher. Both of them saw things in me that no other teacher did in the school. Also, I would like to thank Mr. Antell for everything he has taught me. Also, another memory that I have is chilling at the end of the hall on the heater.

Michael Church

I just want to say thanks to my family, my friends (you know who you are), and my teachers, especially Mr. O'Connor and Mr. Raymond. They helped me through a lot of hard times. It's been a fast 4 years. But the most memorable is senior year because of football. We went undefeated. Heck of a season. Good luck to all you guys that are going varsity next year. Yeah, I've done pretty stupid things. But hey, I'm a little bit harder and a whole lot smarter. That's how I got to be this way. That is from a Justin Moore song that matches me pretty well. All the people will remember me in fifty years by these two words, "truffle shuffle." And that is all I got to say.

Jacob Clark

Thank you to Mr. Hart for getting us through our senior year at our new school. I had a great time.

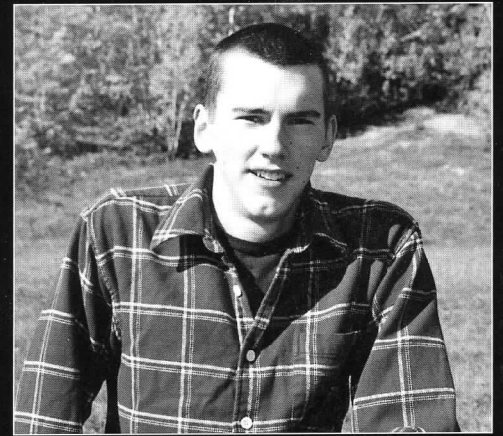

Dawson Cole

So much has happened and gone on that I will never forget. Sure, there were good times that I will cherish and never forget, and bad times that I regret, that I wish I could forget. But they all stick with me forever, and in so doing will keep me learning to be exactly the kind of person I want to be. Some memories from my years at Telstar alone are playing football with my pals almost everywhere we were together (RL, SH, ZH, TC < AG, JC, BF, JB, WL, and many more), getting my driver's license, getting my first job, and getting a tattoo on my 18th birthday. Two quotes I admire most, which I would like to recognize: "Life's not about the breaths you take, but the moments that take your breath away." (George Strait), and "Life's a dance. You learn as you go. Sometimes you lead, sometimes you follow. Don't worry about what you don't know, because life's a dance, you learn as you go." ~ John Michael Montgomery

Jordan Cole

First, I would like to thank my family for being here to support me through the hard times and being there to enjoy all of the good times with me, as well. Through high school I have had some great friends I could count on anytime I needed something. Katie Sumner: you're the best thing that ever had the misfortune of meeting me. You've been a part of my life since the beginning of high school and we've made millions of great memories, and I'll cherish them forever. Good luck to the Class of 2011. I hope whatever you guys are interested in, you follow through with...and I hope life is good.

Toby Cole

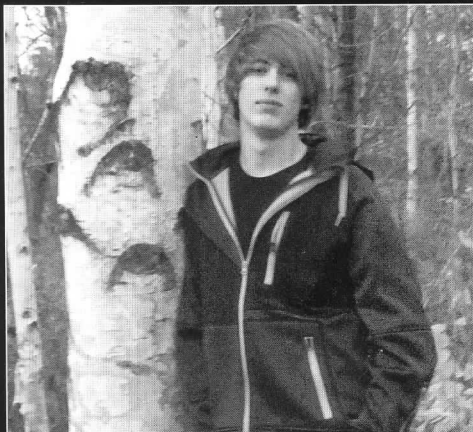

This is to my friends and the underclassmen. We've had a lot of good times and some not so great as the others. Some of you have no idea what lies ahead for you...this means the 8th graders, too. All you really have to do when you find the person who makes you smile and brightens your day...don't let 'em go. And to the "future Telstar football players": I'm going to be making sure that I see you all out there and having fun next season. Trust me, I will. I'm hating the fact that I can't be there for you guys like I want to be. I want to say to everyone pushing me through school: I love you and thank you. Hey, Mitchell Sabins and Coach Rose..."REBELS FAMILY!" I'm going to miss all of my friends and everyone I'm close to at Telstar...I love you guys. Thanks for the memories.

Dylan Coolidge

"The only dependable thing about the future is uncertainty."

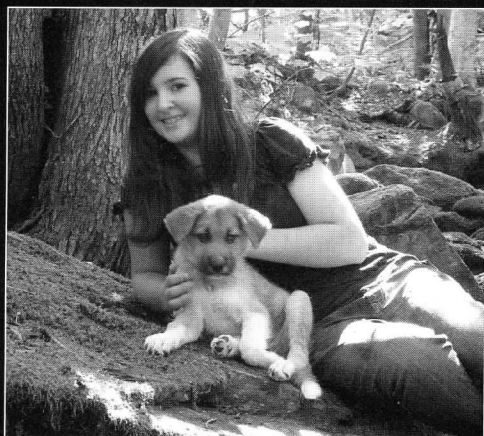

Michael Corriveau

Courseee!! These four years of my life have been a long haul, but totally worth it in the end! I've met a lot of great people that will have an impact on me for the rest of my life, including some of the staff at Telstar. I want to begin first by saying thanks to my mother, Suzanne Corriveau. If it wasn't for this wonderful woman, I wouldn't be half the person I am today. I am forever in debt to her. I love you. And to my father, Fred Corriveau, I love you so much; you have done so much for me and given me every tool I need to move on in my life. Me-mere, I don't know what I would have done without you. You always kept me going and pointed me in the right direction. I love you so much! Keith and Trena, I have no words that can express my gratitude toward you. I see you as part of my family. I love you both. JAK<3 I Love You.

Alexandria Crockett

Well, Class of 2011, we're finally here. There were some tough times along the way, but we made it. We are finally graduating. There are many people that I would like to thank. First, Mom and Dad. Thank you for supporting me in everything I do. To my older sisters, Miranda and Ariel, thank you for being awesome older sisters. I love you both! Thanks to my friends for all the good times and inside jokes. I hope we all stay in touch over the years, even if there are some that move away. And thanks to the teachers who had to put up with my procrastination and for not giving up on me. And to all the underclassmen left behind, try not to procrastinate too much. You will regret it, like I did.

And finally, to the Class of 2011, good luck in all your endeavors!

Tanisha Damon

The first step toward getting somewhere is to decide that you are not going to stay where you are. Learn to let go of the past. Recognize that every day won't be sunny. Don't be afraid to make mistakes and take risks. If they become mistakes, learn from them. Life goes on and you never know where it may lead. I have so many people to thank for pushing me forward when I wanted to give up. Everyone in this school during the past few years has made a difference in my life, and good or bad, I thank you. It helped make me someone I'm not ashamed to be. Mom and Dad, I couldn't ask for better parents. Thank you so much for everything you have done and the amount of support you have shown me over the years. Dharma, keep up the good work. You make me so proud. I love you three! Kayden, you're my baby boy! I love you more than words explain! You gave me a reason to do better in life.

Congrats to the Class of 2011, and good luck in life!

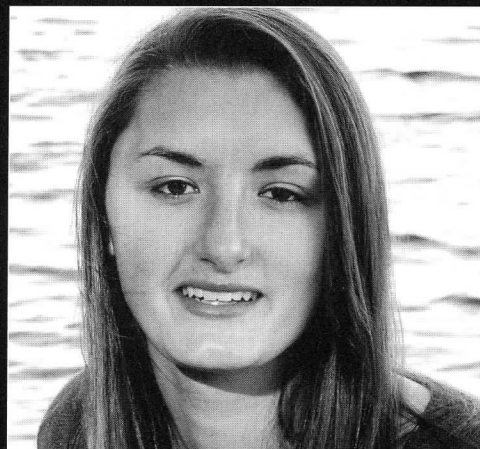

Emma Davis

The struggles that we endure in our youth are only minor details in the long life we have to live. It is said to be the best years of our lives, but I am determined to alter those claims. Although my high school career was fulfilling, I have faith that the path we take in the next few years will lead to something great. So when I say goodbye, I really would like to say thank you. I thank my parents and my two wonderful/beautiful sisters for dealing with my faulty driving skills and supporting me through everything. I thank all my friends and teammates, especially S&K for guiding me to create a better life for myself. I advise you all to take risks and go beyond the norm, for these are your years to make mistakes, learn and experiment.

Take chances and go beyond your point of comfort because you will grow from all life experiences. I wish you all the best in your future endeavors and always remember, "Don't waste your youth growing up."

Cheyenne Day

It's hard to believe that my high school career is coming to an end. These four years have flown by faster than I imagined. I would like to thank my grandmother for all that she had done for me. She has inspired me to be a leader, make the best out of any situation, and to follow through with my goals. She has taught me everything I know and more. If it wasn't for her support, I wouldn't be where I am today. I'd also like to thank Dad and Renie for all their encouragement and influence throughout my high school years. It has only made me a better, stronger person. "If you can imagine it, you can achieve it. If you can dream it, you can become it."

Kimberlei Dean

Thanks to Mom, Dad, Jordan, and Lindsay. I love you so much.

"You only get so many firsts, every one is a blessing." ~ T. Swift

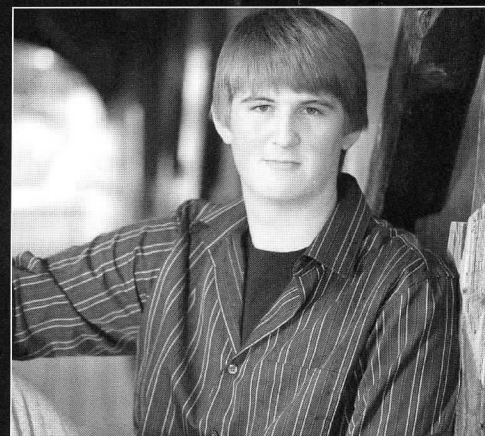

Emily DeCarolis

"It was the best of times, it was the worst of times." Doing a Senior Write-Up seemed sort of ridiculous to me, because I couldn't think of a way to sum up all of high school in just 950 characters. In the end, what I'd want to get across has already been said before, by many more eloquent than I. High school is wonderful and terrible. Leaving is both the most exciting thing I imagined, and the most terrifying thing I've ever tried to do. I've been happier, sadder, more lost and more hopeful during high school than I could have ever predicted. In the end, when I look back at this stupidly sappy blurb 10 or 20 years from now, the thing I want to remember is the music. I want to remember the friends music got me, the hurt and the healing I got from learning to turn random notes into a song. I want to remember songs, and the jokes, and the community. I don't know what to expect from the future, but I know I've got music to take with me.

Benjamin Field

"Thank you to Mom and Dad. I could not have gotten through high school without you. You guys pushed me through every step of the way. Also, thank you to SH, JB, RL, JR, DC, JC, KS, and especially Lyndsay Merrill. I love you! I can't believe graduation is here! Thank you all. I could not have done it without all you guys! Good luck to the Class of 2011!"

Nitasha Fifeild

So, Class of 2011: We're Finally Seniors! Can't Believe How Fast Time Has Gone! I Remember When We Were Freshmen! I Would Have To Say My Most Memorable Moment Was When The Class of 2011 Beat The Seniors In Winter Carnival 2010; Senior Year CNA With Grace Stover; Crazy Region 9 Days With Leo Buck And Tarra Arsenault! And Can't Forget All My Friends Throughout My Four Years Of High School! I Would Have To Give Big Thanks To My Mom And Dad For All They've Done For Me And Getting Me Through School! Also, I Would Like To Thank My Grandparents, Haydn And Rosemarie Jones! They've Also Done A Lot For Me! These Four People Mean A Lot To Me And Always Will! I Love You Guys. Good Luck In All You Do, Class of 2011! Live, Laugh, Love <3

"Well, if I work as hard as I can in my life, I may be able to end up building this thing that nobody can tear down after I'm dead." ~ Jerry Garcia

I keep thinking it's like we're just getting started, but it feels like we've come so far. I can still remember being told as a freshman, "These will be the fastest four years of your life," and now that our high school careers are coming to a close, it seems unreal. For those of you who have always been there for me, you know who you are, and I thank you. Mo-ma, you're everything

I could have ever asked for in a mother; even though sometimes I have an odd way of showing it. To the hockey girls, I wish you the best of luck in the coming seasons; make us proud! I'm so proud to have been a part of such a diverse and incredible group of people. It's sad to think that it's finally over; but it helps to imagine the good times that undoubtedly lie ahead of us. To the Class of 2011: "It's been truly fantastic." ~ Jerry Garcia

Great School, Great Location

Nestled in the foothills of western Maine, and located an hour and a half north of Portland, our school is situated in one of the most beautiful sections of the state~the western Maine foothills. Nearby, there are several lakes and rivers where we enjoy swimming, fishing, hiking, canoeing and kayaking. We are surrounded by miles of cycling and snowmobile trails, as well. Our school has its own network of cross country skiing trails, right in the back of the property. We have several acres of playing fields and an outdoor track. Our district is home to two ski resorts and several hotels and inns. Tourism plays a key role in the local economy. The area has also made it into the record books as home to the world's tallest snowman, Angus. And in one of our district towns, the man who invented the ear muff once lived!

Thank you to all the teachers for helping me get through my four years of Telstar High School. It was a lot of fun. (And a special thanks to Mrs. Carson, Mrs. Marshall, and Mrs. Savage). I will miss all of you. The one person I thank the most is my mother because she has helped me when I needed it; she never gave up, and she's always there.

Samuel Hartzell

Thank you, Telstar. I don't know where I will be in a few years. But I will remember this place and the people here for the rest of my life. I have many fond memories of this place. I will miss my friends BF, RL, DC, JC, KS, AS, JR, JB, and others. I would also like to thank my family; you guys are awesome. I also would like to thank my football coaches BW, TO, JR. Football meant a lot to me. I also would like to give a special thanks to my girlfriend, Jillian May Rice. I love you. That's it.

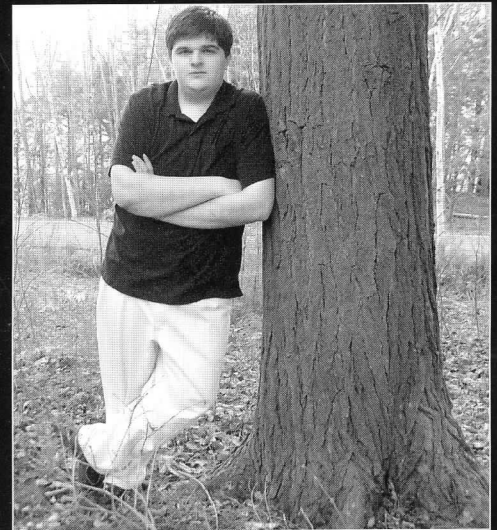

Helpful Businesses, Helpful Parents

Local businesses have been extremely generous with their time and money, constantly ready to help when then can. We are fortunate to live in an area where the local businesses and parents often join together to improve the building and grounds of our school. The entrance to our front door was recently renovated by local volunteer contractors and we now have lovely benches lining the walkway as a result of a previous class gift. Inside and out, volunteers have worked tirelessly during the last few years to help improve Telstar's infrastructure.

William Hinckley

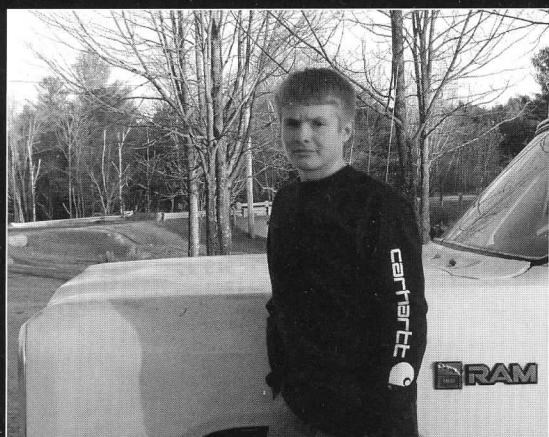

Yikes! I can't believe how senior year has arrived so fast! Jeez, high school has been quite interesting. I will always remember those hilarious conversations that my friends and I had during our study halls, when we most likely should have been diligently working on school work. I will also always remember the awesome times in Drama, and the shenanigans that ensued. OK. Time to be serious. Let's see. I want to thank the many teachers who I have had over the years for teaching me all the knowledge that I will likely use in the outside world. I also want to thank my parents for all the encouragement and help they have given me so far. To my junior class friends: You're almost there! "We can tell other people about--having faith. What we had faith in. What we found important enough to fight for. It's not whether you were right or wrong, but how much faith you were willing to have, that decides the future." ~ MGS2

Joshua Krahn

Ohhh Yuhhht, course school's over and I actually have to do something with my brain. Nahh. I'm just Joshin ure Krahn. Great times wheeling in the Bronco or getting buried in the Samurai or broken down at Bear River, with a packed truck. Anyway, I want to thank all those who made my high school career out of the norm. Kailey Rose Kennagh, G.M., N.M., J.C., B.D., M.C., M.R., and all those I forgot about, I want to say thanks and have a good one. Thank you, Telstar, and Mr. Hart, who always knew I would make it. "Life is one big road with lots of signs. So when you riding through the ruts, don't complicate your mind. Flee from hate, mischief and jealousy. Don't bury your thoughts, put your vision to reality. Wake up and live!" ~ Bob Marley

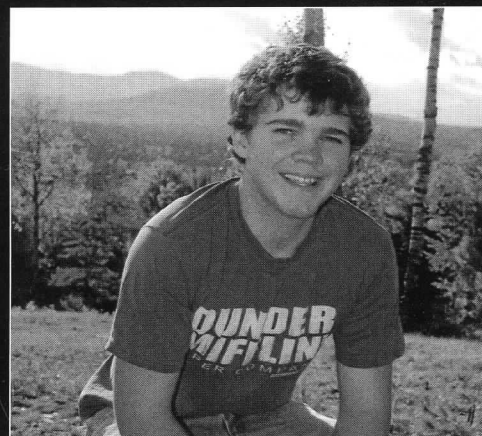

Roger LaCroix

WOW! It's finally here. As a freshman, I thought it would never end. And now, suddenly, it's almost over. I want to thank my parents for understanding me enough to know that I needed Region 9 right from the beginning. We knew it wouldn't be the traditional four years. I decided as a freshman that I wanted to go to WCCC for Automotive Technology and Engine Specialist, and I have never lost sight of that goal. I want to thank Mrs. Dole for being a great advisor by being who she is and understanding who I am. I also want to thank Mrs. Robin Fraser. Without your support and guidance keeping me focused, none of this would be possible. You always knew I could do it. What a ride it has been! ...120...140...160...he's gone! --
Gone in 60 Seconds

Ridge Latham

WOW, where does the time go? First off, I'd like to thank my mom and dad for pushing me through high school. I'm glad they did 'cause I couldn't have done it without them. I would also like to thank my Aunt Sherry, and my elementary school principal, Mrs. Littlehale, as well as my beautiful gf Taylor for also keeping my mind positive through school. Man, I'm going to miss hanging out with SH. DC, BF the most. We had a lot of good times here...some bad, like me and Sam getting caught coming back from Subway. But all in all, high school wasn't that bad. And to the Class of 2011:
Good luck with whatever you choose to do in the future.

Gail Latorogna

It has been a long four years. After it all, I look back and agree with the people who told me it would be the best time of my life. All the stress and deadlines, the fun and the misery have made us who we are today. I would like to thank all the friends and family who have supported me. Oddly enough, I also want to thank the teachers who gave enormous amounts of work, and pressured us to do our best. I will never forget the crazy, fun, and generally stupid things that my fiends and I have done. All the bad decisions and plans that failed have taught me more than I could imagine. I don't regret one second of it. Best of luck, Class of 2011!
"Experience is simply the name we give our mistakes." ~ Oscar Wilde

Jean Lawrence

"When adults say, 'Teenagers think they are invincible' with that sly, stupid smile on their faces, they don't know how right they are. We need never be hopeless, because we can never be irreparably broken. We think that we are invincible because we are. We cannot be born, and we cannot die. Like all energy, we can only change shapes and sizes and manifestations. They forget that when they get old. They get scared of losing and failing. But that part of us greater than the sum of our parts cannot begin and cannot end, and so it cannot fail."
~ John Green, "Looking for Alaska"

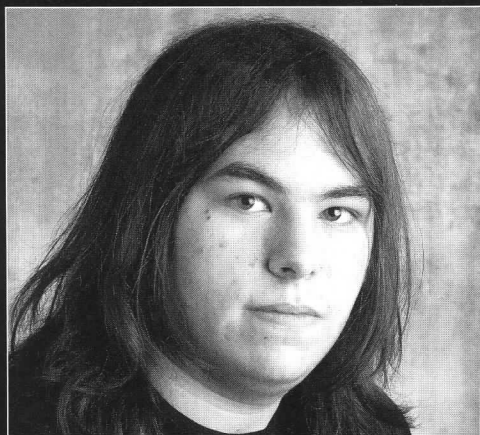

Morgan Lee

"This life is what you make it. No matter what, you're going to mess up sometimes, it's a universal truth. But the good part is you get to decide how you're going to mess it up. Girls will be your friends--they'll act like it anyway. But just remember, some come, some go. The ones that stay with you through everything--they're your true best friends. Don't let go of them. Just because you fail once, doesn't mean you're gonna fail at everything. Keep trying, hold on, and always, always, always believe in yourself, because if you don't, then who will? So keep your head high, keep your chin up, and most importantly, keep smiling because life's a beautiful thing and there's so much to smile about." ~ Marilyn Monroe

They say these four years are the fastest of our life. Never would I have imagined it would go as fast as it did. But, let's not be sad that it's over, let's be happy for the time we had and the memories we'll carry with us for the rest of our lives. To my family, I want to thank you guys for giving me the opportunities that you have throughout the years and for always being there for me! You guys are awesome. I would also like to thank my friends. Without them, high school would have been completely different. You have made it worth it! So here we go, Class of 2011! It's gonna be great!

The past four years have flown by. Now we are all graduating and moving on in life. I wish everyone the very best! High school flies by, underclassmen, so enjoy it while you can!

I love all my friends who have been there for me! Especially those who have been there for me since Day One. T.J.O.: we have been best friends since Day One and we always will be. I love you, Teej! Sam Largess: I love you, sister, and I miss you so much! Lyndsay: take your time; things fly by. Enjoy things for the moment. I love you. Lo: you have made me laugh so many times. Enjoy the rest of your school years while you can. Shaun: I will always care about you, no matter what. You will always be my best friend.

Softball State Champs 2010! This will always be my greatest memory. I love all you ladies. I am going to miss Telstar Softball. To Coach: you have taught me so much through the years, and I am so happy I got to play for you.

I love you all!

Heather Moore

Through all the good and bad times I've gone through within my four years of high school, people have helped me through them. You know who you are and I am very grateful for that. People who have been there for me through thick and thin are (obviously) my sister, Kim, and my cousin, Hannah Huston. Thanks for backing me up when no one else would. Kim, I'll miss you very much when you go down to New York. And, of course, I love you. Alex C., Tarra A., and Nitasha F.: you guys are the best. I also want to thank my Mom for letting me stay at the house through college. My Mom gives me everything, and I love her for that.

"Success is going from failure to failure without a loss of enthusiasm."

Kimberly Moore

There are a lot of people I want to thank for getting me where I am today and helping my success in junior and senior years. The main person I want to thank is my boyfriend of four years. Tony: you helped me realize that doing my work was actually worth it. You were one of the things that helped my confidence. I love you. The second and third people I want to thank are my sister, Heather Moore, and my cousin, Hannah Huston, for always being there. Heather: I will miss playing Xbox 360 with you and complaining about people around school. Hannah: I will miss going to your house almost every day. I'll miss going to your birthday parties, and harassing you at school. I'd also like to thank my Mommy for support. My friends are great: Alexandria C., Nitasha F., and Tarra A. My last thanks goes to all my teachers, especially my favorites. Thank you all. I love you. Give respect and you'll get it back. I'll be in New York.

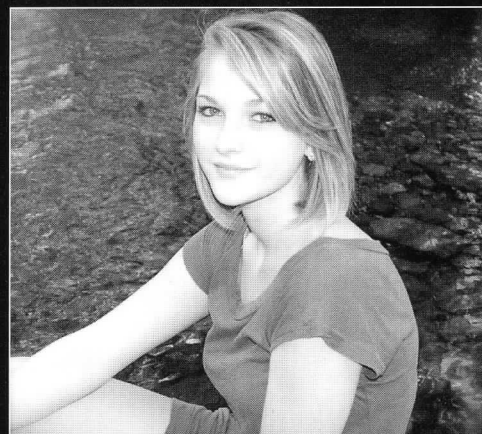

Bye, Maine!

My high school career has given me nothing but a good outcome the past four years. My parents are my backbone, and my biggest support system. Whether it be athletics or academics, they helped me achieve goals that were thought to be out of reach. My sisters have had an immense impact on my success. Without them and the bond that we have created, I would not truly know how much my family really means to me. I have made lifelong friendships and have found out who I really am as a person because of them. I know I can always rely on them for anything and that they will be there for me if I need them. The teachers at Telstar High are the ones that I really need to thank for helping me be successful and for making me want to further my education. As for the Class of 2011, good luck with your future endeavors.

Laugh as much as you breathe, and love as long as you live.

Kayla Morton

We finally made it, seniors. I just want to say thanks to my Mom and Dad, and to my Uncle Brice. If it wasn't for them, I wouldn't be graduating with my class. I'll always remember the memories from over the summer, like hanging out with Tarra, Courtney and all the guys in town, and going to the covered bridge in East Andover. Good luck to the Class of 2011. I love N.P.H.

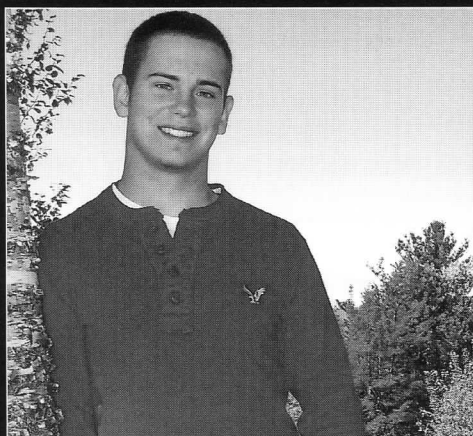

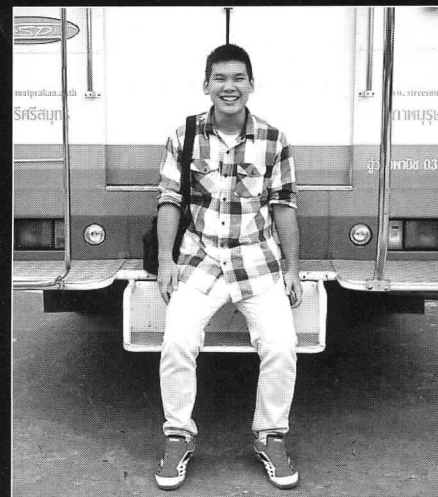

Ciara Madeau

Peace can be used interjectionally as a request, greeting or farewell. So: peace, Class of 2011. I say this both as a greeting and a farewell. A farewell to our past and a greeting to our future. Thanks to all my family. But there are four people who deserve major thanks: my parents for everything. Gram, for always being there. Unkie for providing me with my best friends, my steers. I have many friends to thank but I don't have room. One friend I have to mention is Tiwiwas (Nicena). We have had our ups and downs but I am glad we have remained friends throughout it all. To the drama cast: thanks for always making me laugh. Finally, thanks to everyone who has made me the person I am. J. Kuvaja, no matter what happens between us, thanks for making me a better person and showing me what I am truly worth it, and that I deserve the best. Congrats, Class of 2011....and as Tigger once said, TTFN~Ta Ta For Now!

Shawn (Chodchuan) Nanthasen

I would like to thank Mrs. Forman and Mr. Hart for working hard to get me back here. Thank you to all my teachers and friends who never gave up on me. I love Telstar. <3 <3 Best time ever in my life. :D

Timothy O'Connor

In my journey through high school, I have been blessed with many friends and family members who have driven me to be myself and give everything that I do 110%. I thank, first and foremost, my Mom and Dad. You two have pushed me to my greatest potential and helped to form me into the young man that I have become, and still am becoming today. Also, my good friends EP, JB, DV, JS, ML, and KMM have helped me on my journey through school. Thank you <3. To all my teachers and coaches who saw a diamond in the rough and kept polishing and not giving up. I don't want to forget anyone, so thanks to everyone else who has impacted my life in some way. Now I am on to bigger and better things. Telstar has given me opportunities to thrive and grow, and I have jumped on them. My life is at its beginning and I am taking another step toward success.

Congratulations to the Class of 2011!

Zachary Palmer

The years have flown by, that's for sure. I wouldn't be who I am today, if not for family and friends. Thank you for all the support and encouragement throughout the years. Mom, you are an amazing woman, and I wouldn't change you for anything. Thanks for all that you do. Lacey: you have always been there helping me along the way. Without you, I don't think I would have been able to experience half the things I have. Justin: you have always been there when I needed your help. Thanks for everything. Class of 2011: we have experienced so much together, through thick and thin, we have stayed true to one another. Keep it real!

I can't believe we are all finally here!

I want to thank all my friends: Sam, Katie, Jordan, Ben, Dawson, Katherine, Grace, and Ridge! You guys have always been there for me. And we always had the best times. Katelyn, we have been best friends since elementary school, and I know you will always be there, no matter what. Grace, you are so much fun. Thanks, Mommy and Dad. Sam, you are the best! Thanks for making my junior and senior year so much fun. I love you.

Eric Roy

Good luck, Seniors!

Melody Royer

Throughout our years, we've strived to do our best. The time has come where life as we know it has ended, and a new beginning is taking place. My sister, my other half and my hero, has always been there for me. She has helped me achieve and make choices. I'm so thankful to have a supporting family. I love them unconditionally, and I know that would never change. The thing I will remember most out of high school is running. Running is the key to my happiness and self-being. Coach Crooker showed me this by coaching me through cross country and track. He always had an ambition to push our team and through all the days of complaint, he kept on coaching. For this, I want to thank him.

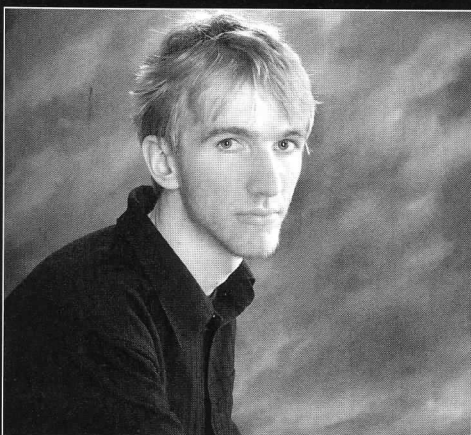

I wish my classmates the best of luck and happiness, forever.

Congrats, Class of 2011. We finally made it!!! First, I would like to thank my Mom and Dad for always being there for me and helping me be the successful person that I am today. You two mean the world to me. To my big brother, Jonathan: thank you for always being there for me when I needed you the most. I am proud to have you be the one that I look up to. I would like to thank my little brother, Mitchell, for fighting with me all these years; it helped me learn how to stand up for myself. Mitchell, work hard and try your best, you will one day make a great mechanic. I love you guys so much. Thank you, Mrs. Carson and Mrs. Marshall, for helping me through the years; I couldn't have done it without you. M.R.: thank you for being in my life, you mean the world to me. Lastly, I would like to thank Ciara for always being there for me and being my tall best friend. This is the end. Now we must part. But I wish you the best of luck in all that you do, Class of 2011!

To my family: you have shaped me into someone I can be proud of today. I could never thank you enough for that. To my sister, your support throughout my life means more to me than you will ever know. Our bond is irreplaceable. To my friends: I will not even attempt to explain the connections that we all share, as they are simply indescribable. To those who matter: one thing is for sure, this is definitely not goodbye. Finally, to the Class of 2011: our lives are just barely beginning. Let's change the world.

Class of 2011: are you ready? Senior year at Region 9 in CNA. All the crazy R9 bus rides. Leo, Rose, Jillian, Nitasha, and Katherine, we have had some pretty amazing times. Thank you for all those memories! Mama: no matter what you think about yourself as a mother, you are my Mama, and you have raised us well. I love you. Nana: my go-to woman, you've given me many an answer and I love you for that. Thank you.

Alright, let's break the mold here. Mom: you're awesome, keep it going. I finally figured out, you're where I get it. Dad: thanks for putting up with me; I know sometimes I'm not so nice. Grace: you're my other half, and don't you ever forget it. Colin: my best friend, my personal confidante, I wouldn't be me without you, so thanks for everything. Dan: I'm really grateful for all the guidance you've given me, both in the shop and just about life. Josh, William, Leo, Rose, Jillian: We've had some fun times, try not to ever forget them! And thanks to all my awesome teachers, don't forget me, I'll be back!

Congrats to the Class of 2011! Thanks for all the laughs and memories. I would like to thank my Mom and Dad, without your love and support I wouldn't be where I am today. The rest of my family, thanks for always being there, cheering me on. Jillian, I knew I could always count on you, through all the good times and bad times. You're still there, you really are a true friend!! The rest of my friends, high school wouldn't have been the same without you. Jordan, you've been with me through it all, you mean so much to me. Field Hockey girls: I couldn't have asked for a better group of girls to play along side.

Parker Tebbetts

Thank you, Telstar. Congratulations and best wishes to the Class of 2011.

Finally, it's over! We did it, Class of 2011. :) High school years sure have flown by and I can't wait to start my future with my loving, caring, handsome boyfriend. He has been so supportive toward all my decisions in my life and has helped me grow up and learn a lot. There is still more to come. I love you so much N.S.D. I am so glad you are in my life. Stephanie Mitchell, my best friend: we sure have been through so much together. But in the end, we will always have each other. Thank you for everything. Sorry that I am leaving you to be alone for the rest of your high school years, but don't give up. I know you can do it; I love you. Mom and Dad: thank you for helping me and sticking through everything with me when I have had my problems. You two are very supportive and caring.

Senior year....the past four years have been filled with so many wonderful memories and unforgettable hardships, an absolute roller coaster ride. Though the years came with their clear ups and downs, I wouldn't trade my time here at Telstar for the world. I've met people within these halls that have had a tremendous impact on my life, and they will forever be in my heart.

So, I'm sitting here trying to write about the last four years of my life. You're all expecting something, a melancholy recanting of memories that you can look at and say, "AWWW."

Well, this isn't that. If I have those memories with you, then we will know and it won't need to be written. So instead, here are some questions: Ever wonder what the speed of lightning would be if it didn't zigzag? Do people read the Bible more as they get older because they're cramming for their finals? If it's zero degrees outside today and it's supposed to be twice as cold tomorrow, how cold is it going to be? Why do they sterilize the needle for lethal injections? Some observations: Those who live by the sword get shot by those who don't. Some people call it lazy. I say I'm energy efficient.

I feel like I'm angle parked in a parallel universe. Light travels faster than sound.

This is why some people appear bright until you hear them speak.

Nice job, seniors; we did it! Our four years were awesome! I want to thank my Mom and Dad for helping me through everything in the past four years. I really appreciate it. I also want to mention my high school sweetheart, Derick Poland. You have helped me so much getting through junior and senior years. I love you so much. I also want to thank my brothers and my sister-in-law, Nathan and Bryce and Whitney, who have kept me going through the years. Love you, Brody, Brennan, and Bryson. Lastly, I would like to thank Pam Poland for being there whenever I needed anything. Thank you guys. I really appreciate it. LOVE YOU!!!!

Thank you, Coach!

Melissa Waterhouse

Thanks to my Mom and Dad. I have learned so much about life. I will miss all my sophomore and junior friends that I leave behind. Region 9 will be the one thing that I miss the most. Jen and Norm at Region 9 taught me how to cook and be more independent. I hope to use those skills and many more when I go to college for early child development so I can become a kindergarten teacher. I'm an 18-year-old girl who likes to cook and bake. I did community service with Mr. Lunney, helping clean the Bethel Inn golf course. I also helped with the Woodstock Elementary School's Craft Fair. I want to thank Mr. Lunney, Mrs. Fraser, and Mrs. Olson, and all my teachers for helping me with my work.

The last 13 years have gone by so fast that it's scary. I don't think I would have made it through school without the support of family, teachers and friends. There are three teachers I would like to thank for all the help they gave me for the first six years of school, and they are Mrs. Colby, Mrs. Hemal and Mrs. Wilbur. I would also like to thank my parents and friends.

I would like to start off by thanking the Class of 2011 for the wonderful road of memories we have left behind us, never to travel together again. We are our own people now, ready to lead our own lives. I would like to thank my parents. The many years of redirecting me when I fell off the right tracks makes me the person I am today. The next people I would love to thank is the THS FH team. We sweat together, we bled together, both by skin and by heart. We cried together and we prayed together. We are sisters forever. Hold our heads high, MVC champs 2010! Next is KDM: I can truly say my life wouldn't be as complete without you. The last person I would like to thank is deceased. I know she's shining down on us the day we graduate. I wish she was there in person, but she is in my heart. Many years of happiness, and to that I would like to thank Phyllis Coolidge. R.I.P.

Telstar High School offers a wide variety of sports ~ from baseball and softball, to golf, track and cross country, as well as nordic and alpine skiing. The school also offers field hockey, football, girls and boys soccer and basketball. Girls soccer was brought back to the school this year and will become a varsity program in the upcoming years. Boys football is expected to play varsity games next year, and they deserve it, with their 8-0 season.

Field Hockey

The Field Hockey team here at Telstar strives for nothing lower than perfection. They are what makes up the true definition of what a team *really* should be. The team always makes it a point to talk and prepare as best as they can before a game. They always work on positioning, angles, working as a team, and most importantly, communication. During the entire 2010-11 playing season, the team lost only a total of two games. They made it to regionals, and were Western Maine runnersup. Such a wonderful accomplishment couldn't have happened without the constant work in building strong relationships within the team. Yes, winning is important to the team members, but the relationships they hold is just as important, if not more. As far as the Varsity Field Hockey team goes, they tried their best to hang out every once in awhile for "team bonding time." They are like sisters to each other. Whether you are on the bench or playing, you are still part of the team, and are always there to back up your teammates when needed.

Rebels Go an Impressive 8-0!

The Telstar Football team was a JV team for 5 years. Coach O'Conner wanted to stay the 5 years to make sure that the team was ready to be a vastity team. They will be loosing 6 seniors. But about 10 to 12 players will be coming up next year. Coach O'Conner's most emotional game was the Homecoming game, because it was the most intense he had ever seen the team play so well, and also improved a lot. The scored ended with them winning 40-20.

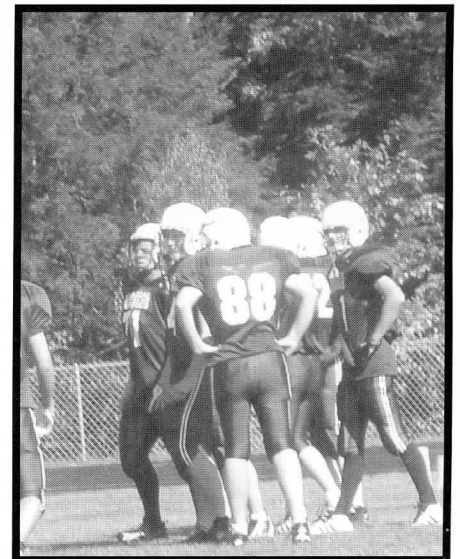

Devin Vail and Corey Howard body bump after an intense victory.

The 2010 golf season was a continuation of rebuilding the program. The Rebels were forced to shift people into higher spots and play the season out. Led by juniors Danny Whitney and Kyle Peterson, the team played competitively in most matches, finishing 4-5 in the regular season and 5-6 overall. The team finished third in the Northern Division and won their quarterfinal match against #2 in the South Georges Valley. The Rebels lost a close semifinal match to Dirigo by only four shots. The team was led by Kyle Peterson's 46.4 scoring average and an 8-3 record playing in the #2 spot all season. Playing #1, Danny Whitney, with a 47.1 average and a 6-5 overall record, helped lead the Rebels to a strong finish. At the MVC's the team finished fourth with a 39.5 total; Kyle Peterson qualified for the State Individual Championships. The team showed improvement over the course of the season. Hopefully, with a full summer of golf and the added experience of these two years, the Rebels will be a competitive team in the MVC. ~ J. L.

Winning Western Maine was a sweet reward for a hard-fought season.

The Telstar softball team celebrated another State Championship in 2010. Led by seniors T.J. Cowin, Lyndsay James and Sam Largess, the Rebels stormed through the regular season undefeated. Pitcher Kayla Merrill set a new school record with nine shut outs during the regular season and only allowed eleven runs. Kayla was voted Player of the Year in the MVC and by the *Lewiston Sun Journal*. Lyndsay Merrill, Nicena Walker, Hannah Morin and Katie Sumner were selected as MVC all-stars, as well as T.J., Sam and Kayla. The team displayed a strong defense and solid offense to roll through the playoffs and defeat perennial power Georges Valley, 3-2 in the Western Maine final. Tasha Farnum led off the seventh inning with a base hit to spark the Rebels to the win. Hannah Morin delivered a clutch, two-out hit to score Lyndsay Merrill with the winning run. Kayla held George Stevens Academy to one run in the State Championship game, and drove in three runs to secure Telstar's second State Championship in five years. Great season, ladies!

Girls state was an opportunity for high-achieving girls to learn about government, such as legislation on bills, how the Maine House and Senate runs, and about town meetings. Students lived in towns of 15-16 girls per town, and nine towns per county in the State of Dirigo. "My town was Liberty, and my political party was the Federalists. We held town meetings and voted for speaker and town councilwomen. We had political parties such as Federalists, Populists, and Nationalists. Each party had to vote for a Presidential candidate and then decide who would become Girls State President. Even though the Federalists candidate didn't get elected, we had the most Federalist people elected into the House, Senate, and other offices," said Katie Stover.

Homecoming Week is loaded with fun activities ... starting with Inter-Satellite games, then a Pep Rally float decorating, a parade down Main Street in Bethel, then a bonfire on the green, across from the Casablanca Cinema. Many Rebel Alumni return home during this week to enjoy the activities and football game, along with several members of the staff and faculty.

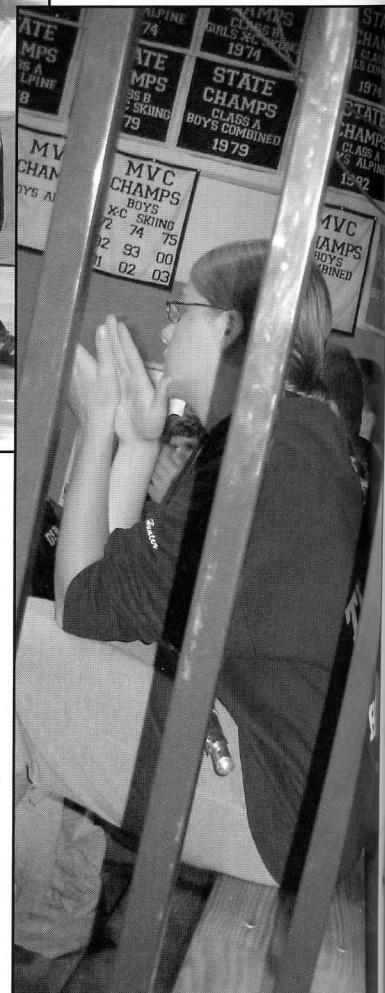

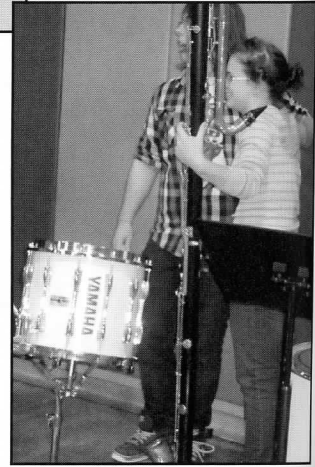

~"Laugh as much as you breathe and love as long as you live." ~

In the Pep Rallies, it's all about having fun, not how skillful you are or athletic, but about cooperation, determination, and celebration.

Each year, on the Sunday prior to Thanksgiving Day, The National Honor Society sponsors a dinner for the senior citizens of SAD 44. It is free to all who attend. The food and door prizes are donated by the Jackson-Silver American Legion Post, SAD 44 employees, students, parents, and area businesses. The members of the Future Business Leaders of America assist the NHS students in preparing the food and transforming the Telstar cafeteria into a restaurant, complete with coat check service and escort service--to and from the parking lot. Approximately 200 senior citizens are served through this event each year.

Little Brother,

Perhaps words are not always necessary in our relationship, because we both know what's there. But today I want to take the time to remind you how much I really care, and thank you for all that you have been to me. I could never ask for, want, or need a better brother because I have the best in you. I love you!

Ciara,

I first would like to say congrats on graduating. I hope this shows you that anything you set your mind to, you can accomplish. So always remember to keep your chin up and never stop trying. I know you will do great in the Nursing Program. I can't wait to go to the same school as you. I love you and this much I know is true: God blessed the broken road that led me straight to you. <3 10/15/10 <3

Believe in yourself and you can achieve
Things you never thought possible.
Believe in yourself and you can discover
New talents hidden inside you.

Believe in yourself and you can reach
New highs that you thought immeasurable.
Believe in yourself and you can elucidate
The problems that defy every solution.

Believe in yourself and you can tackle
The hardest of all solutions.

Believe in yourself and you can make
The complicated things seem simple
Believe in yourself and you can discern
New depths in your life.

Believe in yourself and you can perform
Way beyond your expectations.
Believe in your aim and work towards it
With elation, determination and dedication.
Believe and you will achieve.

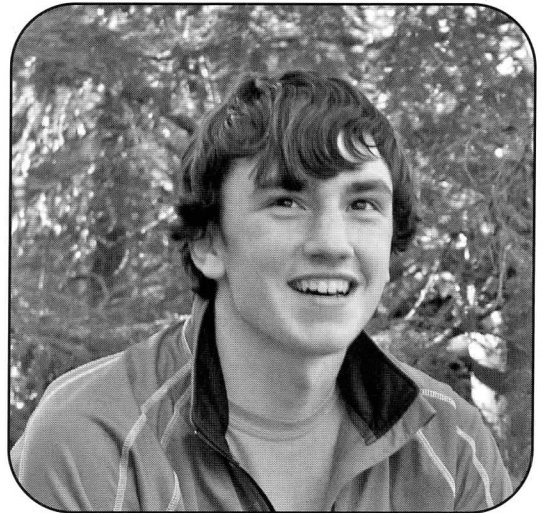

Ben,

Time has flown by. We couldn't be more proud of the incredible, responsible, caring young man you have become. Make good choices, learn from your mistakes and you will succeed in whatever you put your mind to. Always remember we will only be a phone call away.

Dear Toria,

It is hard to believe that the wishes and dreams that were whispered in your newborn ears have been heard. You have surpassed all that was hope for and have become all that you can be. It seems like I just turned around for a moment and in a split second, you grew. Dozens of memories crowd into my mind of your wonderful, growing-up years of adventures, decisions, dreams, laughter and a few tears. You will always be my special baby girl, with all your freckles and eyes of blue. We are all so very proud of you and all your accomplishments.

## Girls Outfit

Go for an edgy, urban look in these American Rag Twill Skinny Cargos—perfectly paired with a belted Cowl neck sweater!

## Big Scarves

Long, flowing scarves become a year-round trend. This must-have accessory is the easiest way to add color and interest to casual outfits.

## Monkey Slippers

It's a toy. It's a slipper. It's a fun fashion trend. Sock monkey slippers are popular in college dorms and at slumber parties.

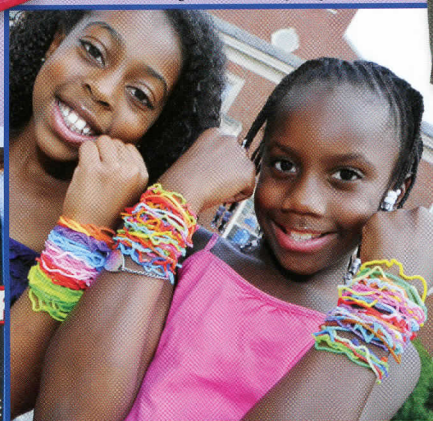

## Long Necklaces

Long, statement necklaces are trend-right. Gossip girls look luxe with Tiffany-style trinkets. Layered, chunky, vintage baubles create an alt-rock, art school vibe.

## Silly Bandz

The bandz are banned! Some schools decide that Silly Bandz — the popular silicone rubber bracelets — are too distracting for the classroom.

The mountaineer look comes to the metropolis, as high-performance outdoor apparel makes a comfortable, cold-weather fashion statement.

Everybody needs an afternoon snack but nobody has time for milk and cookies. The newest granola bars deliver easy energy between lunch and practice.

## Over the Knee Boots

Boots go to great lengths. Over-the-knee styles are seen everywhere from runways to red carpets. Trendsetters wear them with short skirts or slim leggings.
